

ADEDAYO OYETUNJI OLUWAYEMISI

DevOps Engineer · AWS Cloud & Infrastructure · CI/CD | IaC | Linux | Monitoring

Lagos, Nigeria | odunayooyetunji25@gmail.com | +234 806 903 0514 | [linkedin.com/in/adedayo-oyetunji-005303282](https://www.linkedin.com/in/adedayo-oyetunji-005303282) | github.com/Adedayooyetunji

PROFESSIONAL SUMMARY

DevOps-focused cloud engineer with hands-on experience in AWS infrastructure provisioning, CI/CD pipeline implementation, Linux administration, and cloud security. Trained through an intensive 12-month cloud engineering diploma (AltSchool Africa) and a dedicated DevOps engineering programme (TS Academy), with practical AWS project delivery across EC2, S3, Route 53, IAM, CloudWatch, CloudFront, and Lambda. Brings additional enterprise grounding from 3+ years in a data-driven, process-critical banking environment — including incident triage, monitoring dashboards, and structured escalation workflows. Eager to contribute to platform reliability, infrastructure automation, and deployment efficiency in a DevOps team.

TECHNICAL SKILLS

CI/CD & DevOps	Pipeline design & implementation, DevOps Engineering (TS Academy), continuous integration & deployment
IaC & Automation	Terraform (basic), AWS CLI, Bash scripting, infrastructure provisioning on AWS
Cloud — AWS	EC2, S3, Route 53, IAM, CloudWatch, Lambda, CloudFront, Certificate Manager, Auto Scaling
Containers & Deploy	Serverless architecture, deployment models, Docker fundamentals
Monitoring & Ops	CloudWatch alerts & dashboards, incident response, log analysis, uptime tracking
Security	IAM policies, HTTPS/TLS, Domain Security, Ethical Hacking fundamentals (CEH Entry Level)
OS & Tooling	Linux (Ubuntu) — admin, CLI, scripting; Windows; Git & GitHub; Jira
Web & Integration	HTML, CSS, JavaScript (basic), API Integration, DNS Configuration

PROJECTS

AWS Resource Monitoring Dashboard [CloudWatch · EC2 · S3 · Alerting]

- ▶ Provisioned CloudWatch monitoring across EC2 and S3 resources; configured metric alarms, automated notifications, and built custom usage dashboards — demonstrating core observability and ops skills.
- ▶ Defined alerting thresholds for CPU, storage, and request metrics to enable proactive incident response.

Securing Custom Domains on AWS [Route 53 · ACM · CloudFront · HTTPS]

- ▶ Configured DNS routing with Amazon Route 53 and enforced HTTPS using AWS Certificate Manager and CloudFront — applying real-world cloud security and CDN deployment practices.
- ▶ Deployed a static website with fully secured public endpoints, managing certificate provisioning end-to-end.

Cloud Portfolio Website [S3 · Route 53 · HTTPS] — In Progress

- ▶ Building and hosting a personal portfolio on S3 with custom domain configuration via Route 53 and HTTPS enforcement — reinforcing IaC and cloud hosting workflows.

PROFESSIONAL EXPERIENCE

Customer Service Agent & Fraud Analyst · United Bank for Africa (UBA)

2022 – 2025

- ▶ Operated real-time monitoring platforms (NICE Actimize AML, FICO Falcon, SAS Fraud Management) in a high-volume, always-on environment — building familiarity with alert triage, incident escalation, and system observability practices directly transferable to DevOps operations.

- Designed and followed structured triage workflows to reduce false-positive escalations, demonstrating process discipline and systems thinking under production-like pressure.
- Compiled findings into structured management reports, providing data-driven visibility into emerging patterns — analogous to ops reporting and post-incident documentation.
- Coordinated cross-team resolutions for 100+ daily interactions, maintaining SLA-equivalent satisfaction standards across concurrent workstreams.

Customer Care Specialist · *Trivation Technology Global Limited*

2021 – 2022

- Managed multi-channel operations and tracked issues from receipt to closure using structured documentation practices consistent with incident management workflows.
- Coordinated product updates and communications across business teams, demonstrating cross-functional stakeholder management.

Quality Control Officer · *Nigeria Bottling Company – Ikeja Plant*

2015

- Conducted systematic quality assessments against defined specifications, maintaining detailed audit trails — a mindset directly applicable to release validation and deployment checklists.

CERTIFICATIONS & TRAINING

DevOps Engineering · TS Academy

AWS Certified Developer Associate · Amazon Web Services

AWS Certified Solutions Architect · Amazon Web Services

AWS Certified Cloud Practitioner · Amazon Web Services

Certified Ethical Hacker – Entry Level · Cisco Networking Academy, 2024

Diploma in Cloud Engineering – AltSchool Africa · 12 Months

- Core curriculum: AWS & GCP infrastructure, cloud migration, CI/CD pipelines, DevOps principles, containers, serverless deployment, cloud security & compliance, scalable architecture design.

CloudSec Bootcamp – Cloud Security & AWS Infrastructure · 12 Weeks

- IAM policies, cloud monitoring, HTTPS/SSL deployment, incident response, and hands-on AWS labs.

EDUCATION

HND Microbiology · Federal Polytechnic Ilaro, Ogun State

2019

ND Science Laboratory Technology · Kwara State Polytechnic, Ilorin

2015

SSCE · Lord's Garden Comprehensive College

2010

ADDITIONAL

Soft Skills: Analytical Thinking · Cross-functional Collaboration · Incident Documentation · Continuous Learning

Community: Active in local women-in-tech communities; tech evangelist, mentor for beginners, and regular contributor on LinkedIn.
